Project #	Title	Description of Changes
212305 (00495)	RETM Mode for Processing Cancellations of Personnel Actions	Modifications were made to the Retirement Processing System's (RETM) FERS and CSRS master records and the Individual Retirement Record (IRR) to correctly display the net actions and to consolidate the original and corrective actions which will eliminate the creation of unnecessary line items on the IRR.
863029	History Override Export SQC Changes	Corrects the process that builds cancellations for history override packages (HCUP) in EmpowHR.
